

A(z) "**Lifelong learning**" kifejezés angol nyelvű meghatározásai a weben:

**Lifelong learning**, also known as **LLL**, is the "lifelong, lifewide, voluntary, and self-motivated"<sup>[1]</sup> pursuit of knowledge for either personal or professional reasons. As such, it not only enhances social inclusion, active citizenship and personal development, but also competitiveness and employability.<sup>[2]</sup>

The term recognises that learning is not confined to childhood or the classroom, but takes place throughout life and in a range of situations. During the last fifty years, constant scientific and technological innovation and change has had a profound effect on learning needs and styles. Learning can no longer be divided into a place and time to acquire knowledge (school) and a place and time to apply the knowledge acquired (the workplace).<sup>[3]</sup>

**lifelong learning**: a broad concept where education that is flexible, diverse and available at different times and places is pursued throughout life. Four 'pillars' of education for the future were identified by the Delors report (1996): learning to know, learning to do, learning to live together (and with others), and learning to be.
