2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

The main objective of the course is to acquaint students with the main areas of macroeconomic finance (fiscal policy, monetary policy, fiscal stability, and their contexts. The review of the function of the state, the presentation of taxa-tion, fiscal balance and public debt play an important role in teaching of fiscal policy. The central issues of monetary policy are the following: price and exchange rate stability, inflation, furthermore the instruments of central banks and money creation. The essence of financial stability is the ability of core financial markets and institutions to efficiently perform their functions: allocation of financial resources, risk management and managing payment transactions.

Academic results

Knowledge

II. SUBJECT REQUIREMENTS

TESTING AND ASSESSMENT OF LEARNING PERFORMANCE

General Rules

Assessment of the learning outcomes is based on a home assignment and a written end-term test.

Performance assessment methods

A. Detailed description of assessments during the term: Writing a comparative fiscal analysis in teamwork about a group of countries. Out of the maximum 100 po-ints reachable in the whole course, 40 can be acquired by this assignment

Percentage of performance assessments, conducted during the study period, within the rating

Percentage of exam elements within the rating

• Exam: 60%

Conditions for obtaining a signature, validity of the signature

Issuing grades

Excellent	>91
Very good	81-90
Good	71-80
Satisfactory	61-70
Pass	50-60
Fail	< 50

Retake and late completion

1) The exam can be retaken in the exam period.

Coursework required for the completion of the subject

28

22

40

90
