Validity of the Subject Description

2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

This course provides a solid understanding of basic income tax laws relating to individuals and an introduction to business entities. Among the topics that may be covered are an overview of tax policy; the tax system; identifying the proper taxpayer; determining income, deductions, credits, and compensation; deferred, and non-cash income; characterization of gains and losses; tax accounting methods; taxable entities; tax-motivated transactions and local tax issues. Teaching focuses on enabling students to adapt their theoretical knowledge in practice and solve issues regarding taxation.

Academic results

Knowledge

1. • the function and the special features of the tax system,
2. • the types of taxes,
3. • the different types of businesses and their financial statements,
4. • the methods of calculating tax,
5. • the process and crucial points of tax inspection.

Skills

1. Students are able to
2. • plan and organize independent learning,
3. • comprehend and use the professional literature of the topic,
4. • approach and select information available critically,
5. • recognize the contexts of the economic environment and taxation,
6. • make tax calculations.

Attitude

Independence and responsibility

1. Students
2. • are open to accept reliable critical remarks,
3. • collaborate with other students in performing assignments during the learning process,
4. • are able to make independent decisions,
5. • are capable of reasonable consideration in the taxation decision-making process,
6. • can weigh the significance of their responsibilities and foresee the consequences of their decisions

Teaching methodology
