Approved by the Faculty Board of Faculty of Economic and Social Sciences, Decree No: 580884/8/2023 registration number. Valid from: 29.11.2023.

2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

The aim of the course is for students to become familiar with the historical traditions of vocational education, and at the same time to get an idea of the present of vocational education. It is particularly important to outline the institutional system of vocational training, the training structure, and the range of opportunities inherent in dual training. It is also important to explore the factors that influence career opportunities through the characteristics of Hungarian society. When teaching the subject, it is important to guide the future vocational teachers into the world of the school, showing the possibilities of the vocational education career. The subject offers an opportunity to develop foreign language competences through the analysis of the literature and the presentation of research results.

Academic results

Knowledge

1. 1. Knows the legal and ethical rules and norms of the teaching profession.
2. 2. Has knowledge of the role of reflective thinking in professional development, the possibilities of further training, and the theoretical and practical methods of preserving mental health.
3. 3. Knows the theoretical and practical knowledge related to the planning, organization, implementation and control of practical sessions (school, company), the basic principles of organizing individual and group exercises, the basic concepts of differentiation, catch-up and talent development.

Skills

1. 1. Able to manage conflicts effectively.
2. It is able to establish a system of relationships with students based on mutual respect and trust, and to jointly develop and accept the principles and forms of cooperation.
3. In professional situations, he is able to communicate professionally, clearly, openly and authentically with students, parents, representatives of the relevant fields, and his colleagues at school and outside school.
4. They are able to think through comprehensive, foundational professional questions related to the teaching and learning management of their subjects and to elaborate appropriate answers based on the relevant sources.
5. He is able to analyze literature in foreign languages, present research results.

Attitude

1. 1. Respects the students' personality.
2. 2. He is sensitive to the students' problems and strives to provide the conditions for healthy personality development for all students.
3. 3. Strives for active cooperation with teachers of professional theoretical subjects.
4. 4. Is open to asking for and accepting professional help in order to explore and solve conflict situations and problems.
5. Analyzes the foreign language literature independently and displays the results independently.

Independence and responsibility

1. 1. He is capable of professional self-reflection and self-correction in his decisions.
2. 2. He is committed to the continuous development of students' knowledge and learning abilities, and realistically assesses the role of his subject in education.
3. 3. He is characterized by cooperation and responsibility in relation to his profession, field of expertise, and their representatives.
4. 4. He has a significant degree of independence in raising and elaborating the comprehensive and special questions of his profession, in representing and justifying professional views.

Teaching methodology

Lectures, written and oral communication, use of IT tools and techniques, optional assignments prepared independently and in group work.
