## **ECONOMICS II**

### **BMEGT30A103**

# I. SUBJECT DESCRIPTION

## 1. SUBJECT DATA

### Subject name

ECONOMICS II

### ID (subject code)

BMEGT30A103

### Type of subject

Contact lessons

### Course types and lessons

<i>Type</i>	<i>Lessons</i>
Lecture	2
Practice	0
Laboratory	0

### Type of assessment

exam grade

### Number of credits

3

### Subject Coordinator

<i>Name</i>	<i>Position</i>	<i>Contact details</i>
Dr. Gilányi Zsolt	associate professor	gilanyi.zsolt@gtk.bme.hu

### Educational organisational unit for the subject

Department of Economics

### Subject website

<https://edu.gtk.bme.hu>

### Language of the subject

magyar - HU; english - ENG

### Curricular role of the subject, recommended number of terms

Programme: **BA in Finance and Accounting**

Subject Role: **Compulsory**

Recommended semester: **2**

---

Programme: **BA in Management and Business Administration**

Subject Role: **Compulsory**

Recommended semester: **2**

---

Programme: **BSc in Engineering Management**

Subject Role: **Compulsory**

Recommended semester: **2**

---

Programme: **BA in International Business**

Subject Role: **Compulsory**

Recommended semester: **2**

---

Programme: **BA in Applied Economics**

Subject Role: **Compulsory**

Recommended semester: **2**

---

### Direct prerequisites

**Strong** None

**Weak** None

**Parallel** None

**Exclusion** None

### Validity of the Subject Description

Approved by the Faculty Board of Faculty of Economic and Social Sciences, Decree No: 580884/8/2023 registration number. Valid from: 29.11.2023.

## 2. OBJECTIVES AND LEARNING OUTCOMES

### Objectives

The aim of the course is to describe some important real world phenomena in the framework of national accounting, including especially the functioning of the monetary system (increasing stock of money and loan), public debt, unemployment, crisis, cycles and economic growth. In addition to an introduction into the basic notions and principles, we link together theory and practice through genuine national accounting and financial data published by the statistical office and the central bank.

### Academic results

#### Knowledge

1. the framework of national accounting, payment systems and basic terms used in macroeconomics;
2. rules of different monetary systems,
3. the modern private credit-money system and the Chicago-plan aiming to reform it
4. notion of unemployment,
5. input-output analysis method to describe multi sector models,
6. the effects of basic economic intervention
7. the main propositions of the Keynesian theory and of the general equilibrium theory

#### Skills

1. interpret real economies with abstract models
2. interpret genuine economic data published by the statistical office,
3. analyse economic process,
4. identify economic problems and also the tools to answer these problems
5. formulate scientific propositions
6. present ideas in a comprehensive manner

#### Attitude

1. collaborate with their instructors and fellow students during the learning process,
2. sociable, ethical and objective attitude toward socio-economic problems
3. gain knowledge and information,
4. are open to learn and adapt the methodology of information technology tools
5. are aiming at precise and correct problem solution.

#### Independence and responsibility

1. independently formulate and solve problems related to macroeconomic process,
2. take responsibility for their work and professional progress
3. are open for reliable critical remarks
4. use scientific thinking.

### Teaching methodology

Lectures, computational exercises and communication in written and oral form.

### Materials supporting learning

- Gilányi, Zs.(2020), Piacgazda(g)ság: oikonomia vagy khrematistiké?, Akadémia kiadó.
- Benes J.-Kumhof M. (2012), The Chicago Plan Revisited, IMF Working Paper.
- Cartelier J. (2018), Money, Markets and Capital, Routledge.
- L-Randall Wray (2015), Modern Money Theory, Palgrave

## II. SUBJECT REQUIREMENTS

### TESTING AND ASSESSMENT OF LEARNING PERFORMANCE

#### General Rules

The assessment of the learning outcomes set out in 2.2 is based on a summative written assessment (written examination) during the examination period. The signature is conditional on the passing (50%) of at least 2 out of 3 compulsory mid-year written assessments (sub-assessments). A satisfactory mark is offered to the candidate who has achieved a minimum of 60% in each of the two best mid-year written tests.

#### Performance assessment methods

A. Detailed description of assessments during the semester: 1. Learning unit assessment: the precise form, content and assessment of the written test is to be determined by the lecturer. B. Assessment in exam session (exam) A vizsga elemei – elements of the exam: 1. Written assessment (exam): the precise form, content and assessment of the written test is to be determined by the lecturer. 2. During the semester assessment in final grading: prerequisite for exam admittance but not included in final grading 3. The student who achieves good (4) can present for oral exam to obtain very good (5); lower grade is not excluded.

#### Percentage of performance assessments, conducted during the study period, within the rating

#### Percentage of exam elements within the rating

- written exam: 100
- total: 100

#### Conditions for obtaining a signature, validity of the signature

The signature is conditional on the passing (50%) of at least 2 out of 3 compulsory mid-year written assessments (sub-assessments)

#### Issuing grades

Excellent	90
Very good	84–90
Good	72,5–83
Satisfactory	65–72
Pass	50–64
Fail	0–48

#### Retake and late completion

During semester tests cannot be made up or retaken. The admittance to exam is determined by the best 2 test out of the 3. The written exam can be retaken and made up according to the general rules on studies and exam fixed by the university.

#### Coursework required for the completion of the subject

Participation in contact lessons	28
Preparation during the semester for contact lessons and tests	28
preparation for exam	34
total	90

#### Approval and validity of subject requirements

Consulted with the Faculty Student Representative Committee, approved by the Vice Dean for Education, valid from: 06.11.2023.

# III. COURSE CURRICULUM

## THEMATIC UNITS AND FURTHER DETAILS

### Topics covered during the term

Subject includes the topics detailed in the course syllabus to ensure learning outcomes listed under 2.2. can be achieved. Timing of the topics may be affected by calendar or other circumstances in each semester

- 1 Basic notions and concepts 1: theoretical procedure, scope of macroeconomics; wealth and basic logic of wealth accumulation.
- 2 Basic notions and concepts 2: Notion of payment system; monetary system as a special payment system, and money as an element of this system
