Subject Coordinator

Name Position Contact details

Dr. Kalló Noémi ssociate professor kallo.noemi@gtk.bme.hu

Educational organisational unit for the subject

Department of Finance

Subject website

edu.gtk.bme.hu, https://edu.gtk.bme.hu/mod/gtkthesis/supervisor.php

Language of the subject

magyar - HU, English - EN

Curricular role of the subject, recommended number of terms

Direct prerequisites

Strong BMEGT35MN34

Weak NoneParallel NoneExclusion None

Validity of the Subject Description

Approved by the Faculty Board of Faculty of Economic and Social Sciences, Decree No: 580884/8/2023 registration number. Valid from: 29.11.2023.

BMEGT35MN35 2025.12.03 11:53 2/5

2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

The purpose of preparing a thesis is to prove that the student has mastered the knowledge offered by the program, is able to think according to the concepts and structures learned and can apply the learned methods. In the thesis, the students demonstrate the critical application of the knowledge acquired in the engeneering and management fields, as well as their ability to identify and solve problems. According to the thesis topic (which must be related to some subjects of the program), a general or specific company problem must be worked out so that the student can develop a sufficiently well-founded solution proposal at the end of the thesis.

Academic results

Knowledge

- 1. 1. The student knows the technical, economic, and management fields' basic concepts, knowledge, and main
- 2. relationships.
- 3. 2. The student knows the theory and methodology necessary to manage the operations of production and service
- 4. systems.
- 5. 3. The student knows the widely applicable problem-solving techniques necessary for research or scientific work.

Skills

Attitude

- The student is characterized by the desire for self-cultivation, self-development, and raising one's own knowledge to
- 2. a higher level.
- 3. 2. The student is characterized by intuition and methodical.
- 4. 3. The student is characterized by advanced analyzing and synthesizing abilities.
- 5. 4. The student is characterized by a success-oriented attitude combined with a sense of quality.

Independence and responsibility

- 1. 1. The student is expected to have good communication and reasoning skills.
- 2. 2. The student is expected to have problem-recognition and problem-solving skills.
- 3. 3. The ability to search and process information independently is expected of the student.
- **4.** 4. The student is expected to be sensitive to the environment.
- 5. 5. The student is expected to take the initiative, take personal responsibility, and make decisions.

Teaching methodology

The academic work consists of an assignment, consultations, thesis writing, and presentation.

Materials supporting learning

- l A dolgozatírásra vonatkozó szabályok, útmutatók a gtk.bme.hu, illetve az edu.gtk.bme.hu oldalon kerülnek közzétételre. A
- kutatómunkához szükséges szakirodalmi és további ismeretszerzési lehetőségek kijelölése és összegyűjtése a konzultációk és
- önálló munka keretében történik.
- 1 The rules and guidelines for thesis writing are published on gtk.bme.hu and edu.gtk.bme.hu. The selection and collection of
- literature and additional knowledge acquisition opportunities necessary for the research takes place in the framework of
- consultations and independent work.

II. SUBJECT REQUIREMENTS

TESTING AND ASSESSMENT OF LEARNING PERFORMANCE

General Rules

The performance in the subject is evaluated based on the entire semester's work (consultations, individual work, presentation) and its output (thesis)

Performance assessment methods

The student receives continuous feedback from the supervisor about the presented work and its partial results during the consultations and

presentation. If the student participated in the required number of consultations and duly documented them, as well as fulfilled the oral reporting obligation, the result of the semester's work is decided by the supervisor as detailed in point 3.3

Percentage of performance assessments, conducted during the study period, within the rating

- Peparation for consultations and activitity during the semester:: 5
- Performance and preparation for the presentation:: 15
- Compliance of the submitted thesis with the published regulations: : 10
- Professional (both management and engineering) content and quality of submitted thesis:: 70
- **Total**: 100

Percentage of exam elements within the rating

Conditions for obtaining a signature, validity of the signature

Issuing grades

Excellent	95
Very good	88-94
Good	75-87
Satisfactory	62-74
Pass	50-61
Fail	0-49

Retake and late completion

The oral report, if it is verified, can be retaken once during the term. The thesis submission cannot be retaken. There are no correction options

after submission

Coursework required for the completion of the subject

		-
Consultation	30	0
Individual research	30	00
Participation in the presentation, pre-	paration for it 2	0
Thesis writing	10	00
Total	4	50

Approval and validity of subject requirements

Consulted with the Faculty Student Representative Committee, approved by the Vice Dean for Education, valid from: 06.11.2023.
