Approved by the Faculty Board of Faculty of Economic and Social Sciences, Decree No: 580884/8/2023 registration number. Valid from: 29.11.2023.

2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

The subject builds on the knowledge of the quality management field. Its purpose is to present the challenges that organizations face during the practical implementation of traditional quality management concepts and approaches and the application of related methods and tools. It provides students with a comprehensive critical overview of their use, taking into account today's trends and many sector-specific features. During the semester, we review the real impact of globalization, digitalization, technological development, sustainability, and changing customer expectations from a quality management point of view. Students can learn how to improve organizational performance using quality management models and tools through the course.

Academic results

Knowledge

1. Students will know some widespread models and methods of quality management.
2. Student will know the role of quality management in the successful operation of organizations.

Skills

II. SUBJECT REQUIREMENTS

TESTING AND ASSESSMENT OF LEARNING PERFORMANCE

General Rules

The assessment of the learning outcomes formulated in point 2.2 takes place in one midterm and in partial performance assessment.

Performance assessment methods

A. Detailed description of the performance assessments carried out during the term: I. 1 written midterm for 100 points. II. Active lecture participation and submission of tasks developed in groups (partial performance assessment), from which a maximum of 70 points can be included in the final result. The subject can be completed with a midterm and/or partial performance assessment, but with the partial performance assessment at a maximum of 70% (grade 5 cannot be obtained only with partial performance assessment). The formation of teams and the participation in teamwork is voluntary. Maximum 100 points can be achieved from the midterm and partial performance assessment together. Achieving a minimum of 50% from them together is the requirement for completing the subject.

Percentage of performance assessments, conducted during the study period, within the rating

- Midterm: 100
- Partial performance evaluation (active participation and group tasks): 70
- Total: 100

Percentage of exam elements within the rating

Conditions for obtaining a signature, validity of the signature

Issuing grades

Excellent	90
Very good	80-89
Good	70-79
Satisfactory	60-69
Pass	50-59
Fail	0-49

Retake and late completion

1) The midterm can be retaken according to the Code of Studies. The result achieved at the retake is the one included in the final result. 2) Due to its nature, active participation and group work cannot be replaced or improved in any other way.

Coursework required for the completion of the subject

participation at the lectures	24
preparation for the performance evaluation	26
group work	40
total	90

Approval and validity of subject requirements

Consulted with the Faculty Student Representative Committee, approved by the Vice Dean for Education, valid from: 06.11.2023.

III. COURSE CURRICULUM

THEMATIC UNITS AND FURTHER DETAILS

Topics covered during the term
