Validity of the Subject Description

2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

The aim of the course is to give the participants an introduction to the fields of management and marketing, to understand their basic concepts, and to find out the specifics and possibilities of combining these two areas within the organization. The subject would like to provide better understanding of the features of management functions, the characteristics, rules and life cycle of organizations, with the specificities of these factors. Another goal is to understand the essence of the information available to marketers, to provide guidance on the processing and analysis of data available from consumers and the business market. Students will also gain insight into market segmentation, positioning and analysis of market competitors, combining management tools with the key features of corporate marketing strategy. During the discussion of the topics we refer to the applicable management and marketing methods based on their impact on the organization's efficiency.

Academic results

Knowledge

1. are familiar with all the key elements of the concept of business administration and management, and understand the relationships between them.
2. have the ability to overview the interactions of the functional units of the organization, their operational practices, especially in the field of marketing.
3. have confident methodological knowledge in different areas of management and marketing, understanding the application possibilities and combinations of the learned methodologies.

Skills

1. are able to compare the basic theories and concepts related to the management functions with the related marketing concepts, to elaborate rational arguments, and also to form and to defend their opinion in the different stages of management and marketing communication.
2. are able to recognize the connection between different processes in the field of marketing and management, and to select and design commonly usable methodologies.
3. use professional phrases of management, the terminology of the management and marketing fields, and the phrases of the professional vocabulary.

Attitude

1. accept that organizational features are historically and socially defined and constantly variable.
2. accept the historical and contemporary diversity of the Hungarian and European management and marketing tools and undertake to the represented values.
3. are open to all forms of professional innovation, inclusive, but not without reflection, to theoretical, practical and methodological innovations in both marketing and management fields.
4. consciously represent the methods used in their own profession and accept the different methodological features of other disciplines.

Independence and responsibility

1. being in a professional working community are capable of performing, designing, organizing and managing complex tasks in accordance with the professional requirements.
2. organize their work with appropriate autonomy and responsibility in their own organizational structure.
3. are self-contained, constructive and assertive in forms of collaboration within and also out of the organization (especially in marketing and management fields).
