magyar - HU

Curricular role of the subject, recommended number of terms

Programme: **Regional and Environmental Economic Studies part-time programme, autumn start**
Subject Role: **Compulsory**
Recommended semester: **2**

Programme: **Regional and Environmental Economic Studies part-time programme, spring start**
Subject Role: **Compulsory**
Recommended semester: **1**

Direct prerequisites

Strong None
Weak None
Parallel None
Exclusion None

Validity of the Subject Description

Approved by the Faculty Board of Faculty of Economic and Social Sciences, Decree No: 580439/11/2024 registration number. Valid from: 29.05.2024.

2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

To present the role and history, main elements and changing set of tools as well as present practices and principles of the environmental and regional policy of the European Union.

Academic results

Knowledge

1. The student knows the concept of environmental and regional policy, its theoretical background and its complex relationship with other policies;
2. knows the overall history and current situation of environmental and regional policy in the European Union;
3. knows the basic principles of environmental and regional policy (concentration, partnership, programming, additionality, subsidiarity), the characteristics of their development;
4. knows the instruments and institutional system of regional policy in the European Union;
5. knows the attitude of the population and its changes in relation to regional politics;
6. knows the types of regions and their characteristics;
7. knows the main features and changes of the NUTS system.

Skills

1. The student is able to see the environmental and regional political connections of EU co-financed projects;
2. is able to effectively participate in the management of such projects, in an interdisciplinary team, in cooperation with other professionals;
3. is able to analyze the compatibility of certain programs and projects with the basic principles of environmental and regional policy;
4. is able to independently draw new conclusions, apply original ideas and solution methods, using demanding analysis methods.

Attitude

1. The student cooperates with the instructor and fellow students during the expansion of knowledge;
2. expands their knowledge through continuous knowledge acquisition, monitors the development of environmental and regional policy;
3. through their environmental and regional political knowledge, pays attention to wider social, sectoral, regional, national and European values in their work (including social, social and ecological, sustainability aspects);
4. strives to understand complex systems.

Independence and responsibility

1. The student is able to evaluate the projects independently;
2. accepts well-founded critical comments with an open mind;
3. uses the systematic thinking in their approach to arising problems;
4. through their knowledge of the EU's regional and environmental policy, demonstrates a proactive and responsible attitude in social and public affairs related to them.

Teaching methodology

Achievement of objectives in the framework of lectures. In addition, the students independently prepare their practical tasks, in which they present, analyze and evaluate the environmental and regional policy of a country of their choice.

II. SUBJECT REQUIREMENTS

TESTING AND ASSESSMENT OF LEARNING PERFORMANCE

General Rules

The learning outcomes stated in point 2.2 are evaluated during the study period on the basis of a formative assessment (one practical task).

Performance assessment methods

Detailed description of performance evaluations during the study period: Formative assessment (practical task): a complex evaluation method for the subject's knowledge, ability, attitude, and independence and responsibility competence elements, which takes the form of a group assignment, whose content, requirements, submission deadline, and evaluation method are determined by the instructor.

Percentage of performance assessments, conducted during the study period, within the rating

- formative assessment (practical task): 100
- total: 100

Percentage of exam elements within the rating

Conditions for obtaining a signature, validity of the signature

-

Issuing grades

Excellent	93
Very good	87-92
Good	75-86
Satisfactory	63-74
Pass	50-62
Fail	0–49

Retake and late completion

1) Pursuant to the current CoS, in the case of formative assessments, if the assignment was submitted on time, it is possible to repeat or retake it before the end of the late completion period, if the original task has already been accepted by the instructor. 2) Formative assessments can be submitted late, subject to payment of the special procedure fee specified in the regulations. The latest date for late submission is the last day of the late completion period.

Coursework required for the completion of the subject

participation in contact classes	24
preparation for contact classes	15
autonomous learning	36
preparation of the formative assessment	75
total	150

Approval and validity of subject requirements

Consulted with the Faculty Student Representative Committee, approved by the Vice Dean for Education, valid from: 06.05.2024.

III. COURSE CURRICULUM

THEMATIC UNITS AND FURTHER DETAILS

Topics covered during the term

In order to achieve the learning outcomes set out at point 2.2, the subject consists of the following thematic blocks. In the syllabi of the courses announced in each semester, these topics are scheduled according to the calendar and other conditions.

- 1 The content, basic goals, and relationship of regional policy with environmental policy and sectoral policies. The development of regional policy in individual European countries. Regions, regionalization, regionalism, regional identity.
- 2 Stages and goals of European regional policy in individual countries. Grouping of countries according to the objective system of their regional policy. Grouping of countries from the point of view of regionalization.
- 3 Concept and types of region. The necessity, early history and instruments of Community regional policy.
- 4 The effects of the 1973 and Mediterranean enlargements. The 1988 reform of the Community regional policy, its basic principles. The NUTS system.
- 5 Changes in the goal and instrument system of the cohesion policy in the 1990s.
- 6 Antecedents and effects of the 2004 enlargement. Current issues and possible future development directions. Evaluation of regional policy.
- 7 The fundamental elements of the approach to the examination of contemporary environmental problems: complexity and globality. Frameworks for international environmental thinking and action: cooperation within the UN. The most important stages of the cooperation were in the 1970s and 1980s.
- 8 Activities of the UN World Commission on Environment and Development. The strategy of sustainable development. The UN II. World Conference on Environmental Protection. Rio documents.
- 9 UN III. World Conference on Environmental Protection (2002. Johannesburg). International environmental protection cooperation in the XXI. at the beginning of the century.
- 10 Chronology of the development of the European Union's environmental policy. The reactive phase of the Community environmental policy (1957-1987) - the Community I-III. Environmental Protection Action Program (1973-1986).
- 11 The role of the Single European Document (1987), the proactive nature of environmental policy. ARC. Environmental Action Program (1987-1992). The EU's Fifth Environmental Action Program (1993-2000) - towards sustainability. Goals and means.
- 12 VI. Environmental Action Program (2001-2010). The "integrative environmental protection" approach, the so-called Cardiff process.
- 13 VII of the EU Environmental Protection Action Program (2013-2020). The system of environmental regulation in the EU, comparison with domestic practice.
- 14 Domestic harmonization of EU environmental legislation.
