2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

The aim of the subject is to give students the opportunity to make reflections that are valid in both academic and social terms, in connection with a phenomenon that is not specified in advance, but is important from a scientific, technological and social point of view. The focus of the course implementing the subject should always have an innovative element: the topic, the approach, the processing.

Academic results

Knowledge

1. Solid knowledge of the conceptualization for studying social processes
2. Solid knowledge of conceptualization for studying communication and media phenomena

Skills

1. Research skills
2. Analytical skills

Attitude

1. Presence from social science egocentrism in social science fields
2. Openness to social change

Independence and responsibility

1. Adoption and enforcement of professional standards
2. Independence

Teaching methodology

The objective of the subject is to present and explore a new phenomenon, approach, tool. Accordingly, partly through lectures and partly through independent or team works, students learn about the history, socio-cultural background of the phenomenon or device, and perform some active learning, creative tasks that require independent work.

Materials supporting learning

- A kurzus fókuszában álló témához kapcsolódó és a tantárgy céljaihoz illeszkedő szakirodalomról és további tanulástámogató anyagokról a kurzus oktatója gondoskodik, és teszi azokat elérhetővé a hallgató számára.
- Literature and additional learning support materials related to the topic that is the focus of the course and relevant to the objectives of the subject are provided by the course instructor and made available to the student.

II. SUBJECT REQUIREMENTS
