2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

The objective of the subject is to familiarize students with certain areas of foreign economic policy, the most important concepts and present dilemmas. The semester covers a wide range of topics from the perspective of providing students with comprehensive background knowledge that will enable them to analyze complex problems affecting a foreign economy. We examine the individual topics from both the economic and economic policy aspects, with particular emphasis on the domestic aspects. As a result, our students acquire not only the appropriate theoretical foundations, but also up-to-date knowledge and awareness in the field of foreign economics.

Academic results

Knowledge

1. The students are aware of
2. the conceptual system, the economic role of foreign economic policy
3. the characteristics and actors of the foreign economic policy and relationships between them
4. the most important foreign economic policy relationships and theories and calculations
5. key foreign economic policy and trade instruments, techniques

Skills

1. The students are able to
2. to analyse and evaluate the key foreign economic context in practice from an economic point of view
3. plan and organize independent learning,
4. comprehend and use the professional literature of the topic,
5. grasp the professional language in writing and speech,
6. recognize and solve practical professional problems.

Attitude

1. The students
2. are open to learn foreign economic policy,
3. collaborate with their instructors and fellow students during the learning process,
4. gain knowledge and information,
5. are open to critical thinking.

Independence and responsibility

1. The students are open to accept reliable critical remarks.
2. The students are able to solve practical professional problems independently.

Teaching methodology

Lectures and written communication, use of ICT tools and techniques.
