2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

The course is aimed to improve the language competence of students at C1 level, with a primary focus on improving verbal communication. The main goal is to help students expand their vocabulary, use more complex grammatical structures and improve their pronunciation and tempo of speech.

Academic results

Knowledge

1. The students acquire the vocabulary required for discussing more general, global topics.

Skills

1. They are able to understand the gist of a problem, as well as arguments for and against various solutions from written or oral materials.
2. They are able to talk about more general technical problems, such as climate change or problems of energy supply.
3. They are able to express their opinion, argue their case and respond to the arguments of others, and make proposals in professional disputes.
4. They are able to present the solution for a given problem.

Attitude

1. They strive to improve their problem-solving skills and understand points of views that differ from theirs.

Independence and responsibility

1. The students take responsibility for improving their language competence, and acquire the strategies necessary for developing their language proficiency.

Teaching methodology

We use a lot of team work exercises, which provide ample opportunities for professional debates, problem solving and cooperation.

Materials supporting learning

- Aktuális célnyelvi anyagok: újságcikkek, videók, ezekre épülő feladatok. - Topical materials in the target language: newspaper articles, videos and tasks built on them.
