## 2. OBJECTIVES AND LEARNING OUTCOMES

### Objectives

Nothing illustrates the importance of money and the monetary system better than the quote attributed to M.A. Rothschild: "Give me control over a nation's money and I care not who makes its laws." After examining the key economic reason that enabled the transition from money issued by the sovereign embodying the state through purchase to a monetary system where money is created by private banks, we will turn our attention to recent alternatives — such as cryptocurrencies (e.g., Bitcoin) and central bank digital currencies (CBDCs). The economic processes will be illustrated through historical examples.
