Curricular role of the subject, recommended number of terms

Programme: **Regional and Environmental Economic Studies MSc (in English) from 2019/20/Term 1**

Subject Role: **Compulsory**

Recommended semester: **1**

Programme: **Regional and Environmental Economics from 2016/17/Term 1, AUTUMN start**

Subject Role: **Compulsory**

Recommended semester: **1**

Direct prerequisites

Strong None

Weak None

Parallel None

Exclusion None

Validity of the Subject Description

Approved by the Faculty Board of Faculty of Economic and Social Sciences, Decree No: 11. 25. 2020. Valid from Februar 1, 2021

2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

The main objective of the course is twofold. First it gives an overview of the standard economic approaches and methods used in micro and macroeconomic decision making and policymaking. The refreshed concepts will be placed in a new and comprehensive framework. The second goal is to summarize the critiques of standard economic approaches which aroused from the fields of philosophy, ethics and behavioral economics.

Academic results

Knowledge

1. the main concepts of standard and behavioral economics,
2. the solving methods and application possibilities of the comparative static and dynamic analysis, and
3. the critiques – and henceforth the consequences – of standard economics, and some new and alternative approaches in economic theory.
4. the concepts of extractive and inclusive institutions.
5. the potential consequences of a naive interventionism in a complex system.
6. the concept of the Black Swan.
7. the concepts of Extremistan and Mediocristan.
8. cognitive biases of human decision-making.
9. the concept and the methods of phishing. 1
10. the concept of SIFs

Skills

1. plan and organize independent learning,
2. comprehend and use the professional literature of the topic,
3. grasp the professional language in writing and speech,
4. recognize and solve practical professional problems.

Attitude

1. are open to learn and adapt the methodology of information technology tools, and the methods of regression and time series models.
2. Collaborate with their instructors and fellow students during the learning process,
3. gain knowledge and information,
4. are open to critical thinking.

Independence and responsibility

1. are open to accept reliable critical remarks,
2. are able to solve practical professional problems independently.

Teaching methodology

Lectures and written communication, use of ICT tools and techniques.

Materials supporting learning

II. SUBJECT REQUIREMENTS

TESTING AND ASSESSMENT OF LEARNING PERFORMANCE

General Rules

Assessment of the learning outcomes described under 2.2. is based on two written mid-term tests.

Performance assessment methods

A. Detailed description of assessments during the term: 1. Written mid-term tests: on the 8th and 13th week, 60 minutes, respectively. Both will be multiple choice tests.

Percentage of performance assessments, conducted during the study period, within the rating

- mid-term test on the 8th week : 50%
- mid-term test on the 13th week: 50%

Percentage of exam elements within the rating

Conditions for obtaining a signature, validity of the signature

Issuing grades

Excellent	92
Very good	88–92
Good	76–87
Satisfactory	63–75
Pass	50–62
Fail	50

Retake and late completion

1) The mid-term tests of the weeks 8th and 13th can be retaken on week 14th (free of charge) and the delayed completion period (upon payment of an extra fee).

Coursework required for the completion of the subject

Participation in contact lessons	14×2=28
Preparation for the mid-term tests	62
total	90

Approval and validity of subject requirements

Consulted with the Faculty Student Representative Committee, approved by dr. Lógó Emma, Vice Dean for Education. Valid from 11.02.2020.

III. COURSE CURRICULUM

THEMATIC UNITS AND FURTHER DETAILS

Topics covered during the term

Subject includes the topics detailed in the course syllabus to ensure learning outcomes listed under 2.2. can be achieved. Timing of the topics may be affected by calendar or other circumstances in each semester.

- 1 Introduction to the course. Economic approaches and methods. Pricing. Empirics
- 2 Efficient market hypothesis I. (Demand side)
- 3 Efficient market hypothesis II. (Supply side)
- 4 Efficient market hypothesis III. (Equilibrium, social and market efficiency)
- 5 Non-efficient markets I. (Classic market failures)
- 6 Measuring national income and development. Economic growth and development
- 7 Extended growth and development models. (Human capital, natural resources multiple equilibrium)
- 8 1st Mid-term test. Why nations fail?
- 9 Behavioral economics I. (Irrational decision making)
- 10 Behavioral economics II. (Value function and the SIFs)
- 11 The logic of miracles in economics (Black Swan, Extremistan)
- 12 Naive interventionism and ethics
- 13 2nd Mid-term test
- 14 Mid-term tests RETAKE

Additional lecturers

Dr. Kapás Judit egyetemi docens / associate professor
