2. OBJECTIVES AND LEARNING OUTCOMES

Objectives

The course is aimed to enhance the language competency of students who used to have at least a B1+/B2-level language proficiency, in which they have become less efficient and less confident with time. The course is aimed to fill in the gaps and enable the students to use their B2-level language competently once again, so that after completing this course they will be able to join one of our B2 credit courses or preparatory courses for the intermediate language ex-ams. We revise and systematise the grammatical structures required for B2-level communication, aim to develop language skills in a balanced way, while also taking the needs of the students into consideration.

Academic results

Knowledge

1. • The students already know the language and its structural elements, which are necessary for B2-level communication,
2. • they are familiar with the typical linguistic tools and phrases, required for communicating with members of the target culture and necessary for expressing their opinions.

Skills

1. • They understand the main line of thought and key pieces of information of more complex texts with specific or abstract topics (descriptions, reports, interviews, conversations),
2. • they are able to summarise the main points of texts they have read or heard,

4. • they apply the linguistic structures, corresponding to the above-mentioned level of language competence, in their written and verbal communication.

Attitude

2. • they are open to get in touch and maintain contact with members of the target-language culture,
3. • they are keen to fill in the gaps in their language competence.

Independence and responsibility

1. • The students are aware of their strengths and weaknesses,
2. • they have the necessary strategies for improving and maintaining their language competence even independently.
